

Get in the Game! with Geocaching

Have you heard the buzz about geocaching and wonder what that is all about? We can tell you and we'll show you.

Geocaching, is a high tech way to search for hidden 'treasure' using a GPS (global positioning system). You find your treasures' coordinates on a website, plug them into your GPS and off you go.

GeoScouting combines Scouts, the outdoors and geocaching all in one! It's challenging, interesting and fun for the whole family.

April 3, 2010
9:00am- 12:30pm

**Scout Resource
Center
4295 South Garnett
Tulsa, OK
918-743-6125**

Did I mention
It's **FREE**

The **Indian Nations Council** is proud to announce an informational and hands on session on GeoScouting.

You'll log on to the internet to learn how to find your treasure's location, go out and find some caches and then log your find. There will be items to collect or trade (called swag).

All Districts Invited

A GPS will be available to use as a group. We encourage you to bring yours, if you own one.

Fill out the registration form below. Detach the bottom portion and turn it to the Scout Resource Center at 4295 S Garnett Rd, Tulsa. **Class size is limited so please register early or by March 29th.**
